

How to apply for permission to conduct organized activities summer and winter 2024/2025

Dovrefjell-Sunndalsfjella National Park

Hjerkinns protected landscape

Knutshø protected landscape

"Activities are considered organized if an organizer (such as a company, individual, team, school, or organization) plans, coordinates, or arranges trips with participants, and there is often some form of announcement or registration involved (i.e., announcement/registration is not necessary for it to be classified as organized activity). If it is unclear whether it is organized activity or not, emphasis can be placed on whether the organized activity has a certain scale (many people) or if there is a form of repetition."

The application requirement also applies to school classes, tourist associations, volunteer teams and organizations, workshops, field trials for bird dogs and similar activities. The list is not exhaustive.

From 2024, the application requirement applies in Dovrefjell-Sunndalsfjella National Park, Hjerkinns protected landscape partly in Knutshø protected landscape (larger sports events).

Transportation of equipment and tourists into the National Park with dog teams is subject to an application, also in the winter guiding area.

Camping with tent as part of the organized activity is subject to an application and must be disclosed in the application. For camping in winter, allocated tent site in the winter guiding area for the 2024/2025 winter season will be continued.

Organized riding is also subject to an application.

We are now processing applications for the period winter 2024/25 and summer 2025. The following information is necessary for us to process the applications. All points (highlighted in black) must be filled out otherwise the application will be sent back.
